

Education Opportunities

CERT

Community Emergency Response Team (CERT) Training is offered throughout Marin County. Visit <http://readymarin.org/cert/> for information, curriculum materials, class schedules and to register.

FEMA

CERT content is based on training developed by the Federal Emergency Management Agency. FEMA also provides online information for Urban Search and Rescue, and Disaster Emergency Communications. CERT training materials for instructors and for participants is available for download at <https://www.fema.gov/media-library/resources-documents/collections/485> and An online course overview is available <https://training.fema.gov/is/courseoverview.aspx?code=IS-317.a>

FEMA offers [videos](#) on many subjects including creating a Go Bag of supplies, preparing digital documents, and using social media in an emergency.

Get Ready, a 2 hour class to help you plan for emergencies. Visit <https://readymarin.org/get-ready/> for information, course materials and to find a class.

CPR and First Aid

County of Marin Health and Human Services maintains a list of agencies offering Cardiopulmonary Resuscitation and First Aid training; visit <https://ems.marinhhs.org/cprfirst-aid-classes> for information and schedules.

Online information and instruction on CPR for adults, children and animals is available at <http://depts.washington.edu/learncpr/>.

The [Marin Medical Reserve Corps](#) offers an effective, hand-on First Aid for Disaster Response training including CPR, stop bleeding, and splinting. In person training is temporarily suspended during the COVID-19 pandemic – consider these resources and video instruction available online:

You Are the Help Until Help Arrives - Five Steps to help save a life
